QUALITY CERTIFICATE

Senfineco SynthUltra 0W-40 SN C2/C3

Properties

SynthUltra 0W-40 is a universal multigrade engine oil based on advanced synthesis technology and PAO base oils, developed to meet the demands of modern petrol and diesel engines.

A highly effective additive system ensures excellent viscosity stability, reliable shear resistance and very good cold start performance. Even under very high operating temperatures, **SynthUltra 0W-40** maintains a safe and stable lubricating film. Reduced ash formation, outstanding detergent and dispersing properties, and comprehensive protection against wear, corrosion and foam formation ensure long engine life and consistently high performance.

Application notes

SynthUltra 0W-40 is a top product for modern petrol and diesel engines in passenger cars and light commercial vehicles with or without turbocharger.

Because of its special composition this product is ideally suited for use by several of the latest OEM's requirements and therefore has a wide range of applications.
